

# Snowflake Tutorial (basic & #1)

Tools used for tutorials: 1/2" gouge, 5/16" gouge, 3/16" gouge & flower closer (1/8") gouge) .

Place 12-24 paper in proper location. Make cuts shown in pictures 2 & 3.  
Remove paper. Make cuts for 4 thru 9.

\*Normally these three closings would all be the same. I have shown all three so you can see the difference. Chose the one you like or do all three for practice.
